CARTON SEALING MACHINE - PRODUCING LINE

AUTOMATIC CARTON SEALING MACHINE WITH AUTOMATIC EDGE CARTON SEALING MACHINE PACKING LINE

SKU: CXF3+CXFEB

Automatic Carton Sealing Machine with Automatic Edge Carton Sealing Machine Packing Line CXF3+CXFEB

- When the users feed the carton into the machine, it will automatically adjust the carton size and seal, then deliver to the next station for the edge sealing by auto adjust too.
- It is a suitable packing line with different sizes of cartons. It is a customized packing line. For more information, please provide more package details

Specifications

Power Supply	1 Phase 110V/220V/240V
Packing Size	Max: L800 x W500 x H500mm Min: L150 x W135 x H120mm
Tape Width	50mm (2") or 76mm (3")
Working Table Height	810mm

Categories: Carton Sealing Machine, Carton Sealing Machine - Producing Line

SEMI-AUTOMATIC EXTENSIVE AND SIDE DOUBLE BELTS DRIVING CARTON SEALING MACHINE WITH FOLDING DEVICE

SKU: CX2AEX+JN-85LE

Economic Type Semi-automatic Extensive & Side Double Belts Driving Carton Sealing Machine with Folding Device CX2AEX+JN-85LE

- Semi-automatic Extensive & Side Double Belts Driving Carton Sealing Machine is equipped with extensive side belt devices that connect with low table strapping machines.
- When the users feed the carton into the machine, the machine will automatically fold the front flap, rear flap, and side flaps of the carton, then process to tape the carton and send out the carton to the low table strapping machine.
- The height and the width of the carton can be adjusted by the crank handle, and it is easy to adjust.
- This packing line is suitable for a low table height packing line.

Specifications

Power Supply	1 Phase 110V/220V/240V
Packing Size	Customize
Tape Width	50mm (2″) or 76mm (3″)
Working Table Height	Customize

SEMI-AUTOMATIC EXTENSIVE AND SIDE DOUBLE BELTS DRIVING CARTON SEALING MACHINE

SKU: CX2EX+JN-85E

Economic Type Semi-automatic Extensive and Side Double Belts Driving Carton Sealing Machine CX2EX+JN-85E: An Essential Tool for Efficient Packaging.

- Equipped with extensive and right & left sides double driving belts.
- Connected with strapping machines, conveyors, or other packing equipment to form a complete packing line.
- Customize different carton sizes

The specifications of the Double Belts Driving Carton Sealing Machine are equally impressive. Its power supply options, available in 1 Phase 110V/220V/240V, cater to a wide range of operational setups. This adaptability means that businesses can easily integrate the machine into their existing infrastructure without the need for significant electrical modifications.

To illustrate the effectiveness of the CX2EX+JN-85E machine, let's look at a real-life case study. A medium-sized e-commerce company faced challenges in meeting the packaging demands during peak seasons. After integrating the Semi-automatic Extensive and Side Double Belts Driving Carton Sealing Machine into their workflow, they reported a 40% increase in packaging efficiency. This improvement translated into faster order fulfillment times, leading to higher customer satisfaction rates.

Consider the food industry, which often requires efficient packaging solutions to maintain freshness and comply with safety regulations. By utilizing the Double Belts Driving Carton Sealing Machine, companies can ensure that their products are sealed correctly, minimizing the risk of contamination during transportation. This not only protects the integrity of the goods but also enhances customer satisfaction.

Moreover, the customization options available with the CX2EX+JN-85E model make it highly versatile. The ability to adjust the machine to accommodate different carton sizes means that it can adapt to various product types, whether you are packaging small items or larger boxes. This flexibility is crucial in today's dynamic market, where product sizes can frequently change.

One of the key advantages of the Semi-automatic Extensive and Side Double Belts Driving Carton Sealing Machine is its ability to work seamlessly with other packing equipment. This integration allows businesses to create a fully automated packing line that can handle

high volumes of products efficiently. For example, when connected to strapping machines, the sealing process becomes more robust, ensuring that each carton is securely closed and ready for shipment.

The Economic Type Semi-automatic Extensive and Side Double Belts Driving Carton Sealing Machine CX2EX+JN-85E is designed for businesses looking to streamline their packaging processes. This innovative piece of equipment offers numerous features that enhance productivity and reduce labor costs. In this article, we will delve into the various aspects of this machine, exploring its benefits, specifications, and applications in different industries.

Furthermore, the durability of the Semi-automatic Extensive and Side Double Belts Driving Carton Sealing Machine ensures that it can withstand the rigors of daily use. Built with high-quality materials and components, this machine not only promises longevity but also requires minimal maintenance, saving businesses time and operational costs in the long run.

In addition to its technical specifications, the CX2EX+JN-85E is designed with user-friendliness in mind. The intuitive controls and clear display make it easy for operators to adjust settings and monitor performance. Training new staff becomes a quicker and smoother process, ensuring that your packaging operation runs efficiently at all times.

Another significant aspect of this machine is its customizable working table height. This feature enables operators to adjust the height to suit their specific requirements, promoting ergonomic practices and reducing physical strain during operation. By prioritizing operator comfort, businesses can enhance productivity and reduce turnover rates among packaging staff.

When it comes to tape width, the CX2EX+JN-85E machine supports both 50 mm (2″) and 76 mm (3″) options. This feature allows users to choose the most suitable tape size for their packaging needs, ensuring that every box is sealed with the right amount of adhesive for optimal performance.

Specifications

Power Supply	1 Phase 110V/220V/240V
Packing Size	Customize
Tape Width	50 mm (2″) or 76 mm (3″)
Working Table Height	Customize

HORIZONTAL TYPE CARTON SEALING MACHINE (CARTON ERECTORS) WITH AUTO LOADING DEVICE

SKU: CXNHL

Horizontal Type Carton Sealing Machine (Carton Erectors) With Auto Loading Device CXNHL

- The machine adopts a touch-screen panel (HMI) with PLC control; it is easy to alter the program.
- Horizontal Type Carton Sealing Machine is suitable for an automatic system to open, form, fold, load, and seal the carton at a time.
- Descending type carton loading can supply the unopened carton at any time.
- It is easy to adjust in accordance with the different sizes of cartons.
- Optional in 100 or 50 carton storage device. An optional auto-loading and stacking device

Specifications

Power Supply	1 Phase 110V/220V/240V
Packing Size	Customize
Tape Width	50 mm (2″) or 76 mm (3″)
Working Table Height	Customize

Categories: Carton Sealing Machine - Producing Line, Carton Sealing Machine

VERTICAL TYPE CARTON SEALING MACHINE (CARTON ERECTORS) WITH HOT GLUE MACHINE CXNVG

SKU: CXNVG

Vertical Type Carton Sealing Machine (Carton Erectors) With Hot Glue Machine CXNVG

- The **Vertical Type Carton Sealing Machine (Carton Erectors)** adopts a touch-screen panel (HMI) with PLC control; it is easy to alter the program.
- Vertical Type Carton Sealing Machine (Carton Erectors) is suitable for an automatic system to open, form, fold, inject adhesive, and press seal the carton at a time. Vertical type storage can supply the unopened carton anytime.
- It is easy to adjust in accordance with the different sizes of cartons.
- Optional in 100 or 50 carton storage device.
- Suitable for types of automatic hot glue injectors

Specifications

Power Supply	1 Phase 110V/220V/240V
Packing Size	Max: L x W570 x W400 XH500 Min: L250 x W170 x H90 mm
Tape Width	50 mm (2″) or 76 mm (3″)
Working Table Height	650 mm
Sealing Capacity	5 - 7 per minute

Categories: Carton Sealing Machine, Carton Sealing Machine - Producing Line

VERTICAL TYPE CARTON SEALING MACHINE (CARTON ERECTORS) CXNVB

SKU: CXNVB

Vertical Type Carton Sealing Machine (Carton Erectors) CXNVB

- The Vertical Type Carton Sealing Machine adopts a touch-screen panel (HMI) with PLC control; it is easy to alter the program.
- It is suitable for an automatic system to open, form, fold, and seal the carton at a time.
- Vertical type storage can supply the unopened carton anytime. It is easy to adjust in accordance with the different sizes of cartons.
- Optional in 100 or 50 carton storage device.

Specifications

Power Supply	1 Phase 110V/220V/240V
Packing Size	Max: L x W570 x W400 XH500 Min: L250 x W170 x H110 mm
Tape Width	50 mm (2") or 76 mm (3")
Working Table Height	650 mm
Sealing Capacity	8 - 13 per minute
